PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 5+ years of experience designing and developing scalable web applications using MERN stack technologies, Next.js, and TypeScript. Specialized in building high-performance frontend systems, secure backend architectures, and AI-powered features using OpenAI APIs. Strong expertise in REST API development, authentication systems, PostgreSQL, MongoDB, and CI/CD automation.

TECHNICAL SKILLS

Frontend	React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, Bootstrap
Backend	Node.js, Express.js, REST APIs, Python, FastAPI, Flask
Databases	MongoDB, PostgreSQL, MySQL
DevOps & Tools	Docker, AWS, Jenkins, Git, Kubernetes (Basic), CI/CD Pipelines
Additional	OpenAI API Integration, JWT Authentication, RBAC, Performance Optimization, SEO Optimization, A/B Testing

PROFESSIONAL EXPERIENCE

Full Stack Developer | Hashorn Systems Pvt. Ltd. (Nov 2025 – Present)

- Leading development of a secure payment gateway integration platform focused on low-latency transaction processing and high system reliability.
- Architected scalable backend services using Node.js and PostgreSQL to support transaction workflows and audit logging.
- Developed high-performance UI modules using Next.js, improving user experience and frontend maintainability.

MERN Stack Developer | Tru Performance LLP (Jun 2024 – Sep 2025)

- Developed and maintained a high-traffic Legislative Tracking Platform using scalable MERN architecture.
- Reduced page load times by 30% through lazy loading, memoization, and component optimization.
- Implemented JWT authentication and RBAC for secure multi-tenant access.
- Integrated OpenAI APIs and vector search to build an AI-powered support chatbot.

PROJECTS

Secure Payment Gateway Integration System

Tech Stack: Next.js, Node.js, PostgreSQL

- Developed secure payment processing workflows with webhook handling and transaction synchronization.

- Implemented scalable backend modules for transaction logging and financial workflow management.

Legislative Tracking Platform (MERN + OpenAI)

Tech Stack: React.js, Node.js, MongoDB, OpenAI

- Built a scalable MERN-based legislative tracking system with admin workflows and searchable modules.
- Integrated OpenAI-powered assistant with vector search for contextual navigation and support.

EDUCATION & CERTIFICATIONS

B.Tech – Jawaharlal Nehru Technological University (2013 – 2017)

Certifications: Python Full Stack (Kapil IT), MERN Stack Developer (AttainU)
